

Knowledge Services' Managed Service Provider (MSP) is a proven solution that effectively and efficiently manages vendors and the contingent staffing process. Our MSP programs reduce risk, provide increased governance and controls, reduce turnover, enhance workforce decision support and deliver cost savings.

Key benefits of Knowledge Services' MSP programs include:

- Measurable cost savings
- Onsite, dedicated staff to provide program management and support
- Vendor-neutral philosophy
- Reduced administrative burden
- Improved quality of candidates
- Vendor competition through reverse auction functionality
- Reporting and data analytics

These key benefits have **saved our clients an average of 16.5%** on their contingent workforce costs while improving process efficiencies and creating a single point of contact.
